resembles one of those noiseless guns we have lately been hearing about.

J. Pierpont Morgan has been a recent visitor to Monte Carlo. Press dispatches do not give particulars of the outcome, but it was doubtless a stand-off.

OLD TIMES RETURN TO NOGALES, ARIZ.

An indication of the Resumption of Mining Activity in That District.

Nogales, Ariz., March 27.—(Special Correspondence of The Republican.)—The Sonora Mining and Manufacturing company are now running their foundry full blast, and employing about seventy-five men day and night. This is another indication of the resumption of the mines in this section, and our merchants are also feeling the effects of the trade.

The new management of the skating rink has already made changes in the interior that are quite noticeable. Besides repainting and remodeling, there have been added a reading room for the ladies and a smoking room for the men, all newly furnished, stocked with the latest of magazines. Many new skates have been added to the already large collection. It is now the most attractive place of amusement in the town and perfect order is maintained at all times.

Nogales is going to have an election on Saturday for school trustees, and the people of the town are desirous of having a woman representative on the board this year. In view of the fact Mrs. L. Burgoon, a former teacher, and one of the leading ladies of the town, has allowed her name to be presented to the voters. Mr. Thomas Bayne, the retiring trustee, and also Dr. A. L. Gustetter will be candidates. The voting bids fair to be lively.

Hon. B. Whiteside, member of the legislature, has been filling the post of county recorder during the absence of Mr. Phil Herold, who has been in California for some weeks on his wedding trip.

The Masons are contemplating some improvements to their property that will be quite extensive in character, and add much to the value. In view of the large increase in membership it was deemed a necessity to make these improvements now, and arrangements are already under way for the work to begin soon.

Word has been received here that Rev. D. M. Brookman, of Phoenix, who has been serving Saint Andrew's Episcopal church for some months past, has been compelled to sever his connection with the parish owing to the extreme serious illness of his wife. He has endeavored himself to every one connected with the church, as well as made friends among the business men of the town, and all regret to lose him as a pastor and friend. The vestry have expressed their sorrow at his leaving, and hope for the ultimate recovery of his wife. He has gone to southern California to reside.

The annual examinations for all positions in the customs district of Arizona in April, and the lodges of this town have sent the following delegates to represent them at this meeting:

THE KANSAS CITY WAY.

The Kansas City girl has a code of etiquette all her own, judging by the reports of a little occurrence in a Kansas City restaurant the other evening, which it behooves the men to keep in mind. A man who had not the honor of an introduction to the cashier of the restaurant had six bullets distributed about his anatomy by the young lady because he had the presumption to call her "honey." His friends claim that he merely meant to be gracious, and that his good intentions were misunderstood by the impulsive girl. Even if his familiar salutation was distasteful to her it seems as though she might have given him an opportunity to apologize before she began firing. There is, however, something to be said on the other side. The cashier of a restaurant undoubtedly occupies a very trying position. Every male customer considers it his duty to say something polite, facetious or impudent as he pays his bill, and it is not astonishing that in course of time she should reach a state of exasperation where she would commit murder on the slightest excuse.

A BEVERAGE FOR STATESMEN.

There has been a misunderstanding about the buttermilk championship. That fine old farmer, James Wilson, secretary of agriculture, met a friend in Washington the other day and thus greeted him: "Come and have a drink. I am dry with thirst." The friend, considerably astonished and not a little shocked, managed to stammer an acceptance of the invitation. The secretary led the way to a small dairy joint and winked at the attendant, who immediately began to dip some sort of white liquid from a jar into a mug. "I always drop in here every afternoon," said the secretary, sipping his milk with relish, "and drink a couple of mugs of buttermilk. It's the finest drink in the world. I don't eat any lunch, and this gives me a good appetite for my dinner." The friend much relieved, said that Vice President Fairbanks, who has not particularly relished his notoriety in the matter of beverages, will gladly surrender the buttermilk belt to Secretary Wilson.

Governor Johnson, of Minnesota, the bold man, proposes to fly in the teeth of superstition—if superstition has any teeth left—and attend a banquet in New York on the 13th of April. It must be that he doesn't care what happens to his presidential boom.

Now that Illinois republicans have spoken out emphatically for Speaker Cannon, it will no longer be accurate to say that Speaker Cannon's boom

Tired Women

Women's delicate nerve organism suffers much from worry, excitement, over-work. Headache, nervousness, backache, stomach trouble, and general debility are the natural result. For all such Dr. Miles' Nervine will be found to be a splendid nerve tonic. It soothes the nerves, and brings refreshing body-building sleep and rest.

"I have been extremely nervous for some years—Dr. Miles' Nervine has done me more good than any medicine I have ever taken. I have used it whenever I needed it and it always quieted my nerves, and strengthened me so that I feel first rate."

SCIENCE AND SOUND FACT.

"The workings of the human mind when asleep are full of wonder," remarked a scientist who was paying a visit to an acquaintance. "Have you ever started up from a sound, dreamless sleep, with every sense on the alert and with your whole being thrilled with a vivid yet indefinable feeling that something was wrong and instant action required?"

"Often," replied his hostess, "and in nearly every case I have found that I was awakened by the fumbling of my husband's key at the front door!"
